### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach in combination as claimed, a method of determining air humidity with a capacitance moisture sensor including charging and/or discharging the moisture measuring element by way of a second measuring resistor. The value of the second measuring resistor is different from the value of the first measuring resistor. Where a second time constant or a second period duration of the charging and/or discharging operation is determined. This improves the level of measuring accuracy with a conventional capacitive moisture-measuring element.

- 2 Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **Prior Art Made of Record**

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

A. Bernhard (US 2005/0212532) discloses a method and apparatus for measuring the moisture content of soil. The application fail to disclose a method of determining air humidity
